PART-TIME

Duration
4 Weeks

MUSIC PRODUCTION

OVERVIEW

Aimed at individuals of all ages that want to know more about the music production process.

This course has been specifically designed to take a student from scratch to be able to make a complete production within a modern style. A wide range of topics is covered within the course which exposes the student not only to learn the fundamental skills but also to further explore the wide field of music production.

Techniques and concepts learnt in this course can be applied in other Digital Audio Workstations (DAWs) as well as to musical styles not covered within the course.

PROGRAMME CONTENT INCLUDES

- Lesson 1: Introduction to Music Technology & Studio Setup
- Lesson 2: Sequencing & Recording Drums
- Lesson 3: Bass Programming & Recording
